

"LET'S HAVE NO SHORTAGE OF COAL"—GEN. PERSHING**MESSAGE TO FUEL ADMIN. ISTRATOR GARFIELD.****Every Person Must Conserve in Order That Production May Be Sufficient.**

The following is the text of a cablegram received by Dr. Garfield, U. S. fuel administrator, from Gen. Jack Pershing, sent by wire to W. E. Meyer, state fuel administrator, and forwarded by him to The News:

"Let there be no shortage of coal. Lack of coal means limiting our industries, railroads and shipping are slowed down and the army cannot be provided with means to deliver the telling blows needed to end the war. Without coal we shall be without guns and ammunition to use against the enemy. The man in the mine helps the man on the firing line. The more you produce the sooner we shall have peace. Every soldier of the American expeditionary forces expects to be backed up by the miners of America just as labor in every branch of industry at home has stood behind us. We soldiers know that we can depend upon you to do your part as we are doing ours."

"This clearly shows our people must take still greater care to save coal in every possible way. To make matters still worse, the great influenza epidemic is reducing the output of mines from twenty-five to fifty percent. Show real patriotism by burning less coal."

W. F. Meyer, state fuel administrator, declares that the fuel output in the state of Tennessee has been cut fully thirty-three and one-third per cent. by the recent influenza epidemic. Some persons familiar with the fuel situation even estimate that it has been reduced to one-half its normal output.

As a result of this Mr. Meyer says that he is not going to issue any new orders relating to the conservation of fuel, but that he is going to request urgently those who have their winter's supply in their bins, to be just as conservative as possible, and not burn fuel where it is not absolutely necessary.

In discussing the situation further, Mr. Meyer declared that the fact that the majority of the citizens of Tennessee have their winter's supply of coal stored away is what saved the day during this unforeseen epidemic, and that by the greatest observance of the rules already laid down by the United States fuel administration, he believed it would not be necessary to close down any industries this winter. However, should the people become careless regarding the seriousness of the situation, very drastic steps may necessarily follow.

According to information given out by E. R. Clayton, district fuel representative, coal production at the mines in East Tennessee and Southeastern

Kentucky, has been reduced from 227,000 tons to 152,000 tons within a week. Mr. Clayton stated further, that for the week ending Saturday, Oct. 5, the production was 222,000 tons or a loss of 5,000 tons from the previous week.

Mr. Clayton has estimated that the production will drop to approximately 200,000 tons for the week ending Oct. 12. He says that the epidemic is fast spreading among the miners and during the next two to three weeks, it is expected that production will be much lower than at any time since last March when it reached its lowest level.

At Walland Creek, Ky., a mining center, there were six persons afflicted with influenza Saturday, but the disease has spread so rapidly that on Wednesday 100 cases were reported. The miners at Westburne, Ky., are on the verge of closing down, owing to the epidemic, and the only physician in the community has been stricken with the mauling and assistance had been requested from Nashville. Eight deaths occurred there Wednesday from pneumonia and influenza.

SERVICE LEAGUE TO SERVE SOUP AND GUEL

The Women's Service League, at a called meeting this morning, decided to furnish hot soup and grael daily to the people of East Lake for the duration of the epidemic of influenza. Two large milk cans full will be made and sent out probably by 4 or 5 o'clock this afternoon. Mrs. Morris Temple will make the grael and Mrs. E. C. Card the soup. It will be sent to Miss Josephine Douthett, who together with her assistants, is in charge of the situation at this suburb.

R. C. SIGNS GUIDE WOUNDED.—E. A. J.—Thousands of small cloth signs provided by the American Red Cross are distributed to follow the advance of every American attack and are tacked to trees, posts or other objects to point the way for "walking wounded" to first aid dressing stations. By the side of the large Red Cross in the white cloth is a red arrow pointing the direction.

HOWARD PECK VERY ILL

Indications Now That Former Traffic Officer Will Die.

Friday at 2 p.m. little hope was entertained for Howard Peck, for a number of years traffic officer at the corner of Ninth and Market streets and recently associated with the claim department of the street car company. Mr. Peck has been suffering with influenza for about ten days. No member of the police department ever enjoyed the popularity of Mr. Peck, and a circle of friends await with anxiety news from his bedside.

MARSELAISE IN BERLIN.—German Independent Socialists Staged Demonstration.

Amsterdam, Oct. 16.—A demonstration by the German Independent Socialists in Unter den Linden, Berlin, today is reported by the Cologne Volks Zeitung, to have been a success.

The police, adds the newspaper, prevented the demonstrators from reaching the crowd, which was in the vicinity of the Reichstag building, in which some of the crowd were slightly injured by the police sabres.

CHICAGO MUST HUSTLE.—Lacks \$65,000,000 of Reaching its Full Liberty Bond Quota.

Chicago, Oct. 16.—Chicago must raise \$65,000,000 between now and tomorrow night if it is not to be behind in its fourth liberty loan quota. Yesterday yielded \$18,000,000, but today and tomorrow must bring subscriptions totaling \$22,500,000 if the mark set as the minimum by the government is reached.

GOING! GOING! GONE!!!

Save Your Hair

GIRLS! Do not put off the care of your hair. Beautiful, fluffy hair is but a matter of taking the proper care of it. For the past 19 years thousands of women, throughout the United States and foreign countries have used with wonderful success

Newbro's Herculide

PROVOST IN DARING NORTH GEORGIA RAID**CAPTURES 141 GALLONS OF MOONSHINE LIQUOR.****Also Assist a Georgia Sheriff in Arresting Desperate Leader of Band of Moonshiners.**

CONFISCATED CONTRABAND

140 gallons of corn liquor, valued at \$4,450

3 mules, valued at 450

1 two-horse spring wagon, valued at 25

1 one-horse wagon, valued at 75

1 set double harness, valued at 75

1 set single harness, valued at 40

Total \$5,120

The largest haul of unlawful and untaxed liquor ever made in the history of this county was the coupe early Friday morning by Capt. Henry S. Cole, chief of the provost, and his efficient and vigilant little band. The guilty parties made their escape by cruelly and inhumanly placing two little children whom they had with them on their backs and making a dash for liberty, knowing the officers would not shoot at them with the children on their backs. The raid, in all, netted the officers 140 gallons of corn liquor, 3 mules, several wagons and 3 sets of new harness, all of which were confiscated. All the contraband goods are now at the police station, where they remain and probably will be unclaimed.

Capt. Cole and his men are being congratulated on the haul by those at the police station, who unhesitatingly made out a check for the value of the goods. The fact that Capt. Cole has only been chief of the provost for two weeks, he has demonstrated that he has declared war on liquor law violators, this being the second successful raid he and his men have made. The other was the destroying of a still on the Bird's Mill road. It is the opinion of the provost chief that the place the liquor came from is probably one of the largest stills in north Georgia.

The capture of the liquor this morning by the provost was the result of a hurry call they received from the sheriff of Dade county, Georgia, who stated that he had a notorious moonshiner and desperate character cornered in the mountains of north Georgia, and wanted help. The band of provosts started for the scene of the sheriff's trouble. Just as they turned around the mountain in Georgia in a dark night, they ran up on two wagons, which were occupied by two men and two little children. Before the provosts could stop their car the two men left their possessions and disappeared in the woods, carrying the children on their backs as they ran. The wagons were then taken charge of and Corporal Zajas and Private Perry were placed on them and sent to town. The rest of the party continued to the scene where the Georgia sheriff had his man cornered. When the place was approached the desperado was standing in the door of his home. Private Goodbout engaged in conversation with him and in some manner quieted him until he came within striking distance, and then he let swing with a strong-arm blow, flooring the man, and he was then taken to jail. The provost turned over to the Georgia sheriff, who now has him safe in jail. The sheriff stated he was one of the most desperate men in that section and had given the authorities a lot of trouble. The provosts then returned to town after their profitable night's work, a tired little band. Capt. Cole did not know the name of the man his men caught for the Georgia sheriff.

BATTLES WITH "FLU"

Dr. Rosenow, Expert, Offers Chicago Vaccine Against Influenza.

Dr. E. C. Rosenow, of the Mayo Foundation, Rochester, Minn., called to Chicago by the state and city health authorities in the effort to secure an effective preventive and cure for influenza, has arrived, says the News, and is holding conferences with Dr. C. St. Clair Robertson and the influenza commission. The conference was devoted to technical discussion of the new vaccine discovered by Dr. Rosenow, said to have been successfully used on 15,000 patients in the vicinity of Rochester.

75,000 Doses Ready.

Dr. John Dill Robertson in addressing the Chicago Association of Commerce today said there had already been 2,555 deaths in Chicago from influenza and pneumonia, as against a normal death rate from pneumonia for the same period of 180. He also said that it is decided to use Dr. Rosenow's vaccine, it will be possible to manufacture 100,000 doses a day, but that it will require at least five days to develop the cultures. Dr. Rose-

now, he said, has now on hand 75,000 doses, ready for shipment here, if the influenza and pneumonia have taken more lives in this country already, according to Dr. Robertson, than have German bullets in the American expeditionary forces.

CHATTANOOGA BOYS BACK FROM TRAINING CAMP**COMMISSIONED SECOND LIEUTENANTS.****Raleigh Crumbliss, Will Fritts and Others Now Wearing Gold Bars.**

Lieut. Raleigh Crumbliss, formerly a Chattanooga newspaperman, is home on a furlough. He, with several other Chattanooga boys were graduated from the central officers' training camp at Gordon, last Tuesday. Lieut. Crumbliss has been assigned to the 155th depot brigade along with William Fritts and H. H. Graham two other local boys graduating in the same class. Other newly commissioned officers from Chattanooga who are also home on furloughs are: Tom McMillan, Claud P. Murphy, Will Bundschu, Joe Rowe and John Clark McDermott. In the class to be graduated either Nov. 1 or Nov. 15, are two other Chattanooga boys, Ronald Harris and Joe H. Pershing. The battalion that will graduate on Dec. 1 has Hugh Brown on its roster. Arthur Bell is entering the school in a class just being formed.

Lieut. Crumbliss left with the draft forces June 28. He was assigned to the 13th company of the 157th depot brigade, and given special duty at the record taking station under Lieut. George Rule, also of Chattanooga. He was recommended for an officers' training camp in July.

INFLUENZA AT HOSPITALS

Erlanger Has Too Many to Count—None at Pine Breese.

With a view to estimating how many influenza patients were in the local hospitals the institutions were called, and the following report made: Erlanger reported "full, too many to count." Newell reported 144 patients. Hixson, fourteen, and the Woodford-Johnson, eight.

Breese reported that they had quarantined against visitors at the very outbreak of the epidemic and consequently hadn't a case of influenza of their wards. Some of these cases reported are serious and others very mild. One infant is reported as having the disease.

CASKET DEMAND HEAVY

Local Manufacturers Unable to Meet Increase in Consumption.

On account of the large number of deaths due to the epidemic of Spanish influenza, the demand on the local undertakers for caskets has become so great that they are not able to supply the wants of the people. The undertakers are not able to supply the kind of caskets which are wanted and people are forced to take the kind they can get. In a number of instances young people have been buried in black caskets because of the fact that the undertakers did not have white caskets of the proper size in stock.

Both of the local casket manufacturing concerns are swamped with orders and are not able to meet the demand which has been occasioned by the epidemic. Telegraphic orders come from all of the surrounding towns, but the companies are not always able to meet the demands.

JEWRY RAISING BILLION.

New York, Oct. 16.—A fund which may reach \$1,000,000 to be used to finance the reconstruction of the Jewish world will be sought by the joint distribution committee of the American funds for Jewish war sufferers, which was announced here, will undertake what it is believed is "the largest purely humanitarian project in history to be attempted by individual effort."

SERIOUS CHARGE AGAINST MOUNTAIN CITY MILLS**FORMER EMPLOYE SUES FOR HEAVY DAMAGES.****Claims Mills Violate Federal Regulations—Defendants Flatly Deny.**

Suit was entered in the circuit court Thursday afternoon by M. W. Leonhardt against the Mountain City Mills company and W. E. Hutcheson, president of the milling company, asking \$10,000 damages for slander. Mrs. Leonhardt also asks \$10,000 from the same defendants on the same grounds.

The suits arise as the result of differences growing out of one of the complainants' connection with the defendant company, where he for eight years served as superintendent. Mr. Leonhardt further charges the defendants with violating the government regulations at the mill. The defendants claim that the suit is only one brought by a disgruntled employee, and at the proper time they can prove the charges are false. Mr. Leonhardt charges that about twelve months ago he noticed certain food regulations being violated at the mill, in that more flour was allowed the bakery department than the government had authorized and that pure wheat products were turned out instead of the "war bread" formula. The complainant further charges that substitutes were placed in the government flour instead of it being turned out 100 per cent. pure, as ordered by the government. Mr. Leonhardt stated that when he informed Mr. Hutcheson of the alleged irregularities at the mill he was denounced as a scoundrel and that the mill had information on which they could send him to the penitentiary. It is charged that later accusation was made in the presence of the mill employees and has done the former superintendent's reputation great harm. The complainant charges he has given a detailed statement of all the alleged irregularities at the mill to the department of justice. The suit filed yesterday was filed through T. Pope Shepherd.

FREE TO ASTHMA SUFFERERS**A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time.**

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as Hay Fever or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our own expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time. This free offer is too important to neglect a single day. Write now and then begin the method at once. Send no money. Simply mail coupon below. Do It Today.

FROM LAST BELGIAN STRONGHOLD

The capture of Zeebrugge drives the Germans from the last hold they had on the Belgian coast, and now the allied lines extend eastward to the frontier of Holland. The capture of Zeebrugge resulted from a spectacular eight-mile advance by allied forces north-east of Bruges.

"FLU" CUTS OUT FOOTBALL

Chicago, Oct. 18.—Influenza made the first "touchdown" in the week's football schedule today when Coach Stagg, in accordance with the advice of the board of health, refused to permit his warriors to stage a game with the Great Lakes naval training station tomorrow.

The Michigan Aggies game is also off and this means that practically no games of note will be played tomorrow. Illinois is debating the advisability of its scheduled game with Fort Benjamin Harrison. It is understood that Iowa will play Cornell college at Iowa City without spectators.

Meanwhile training and practice is being carried on full tilt at the conference.

ence colleges in preparation for the "big ten" games next month, and the cessation of the epidemic.

SOUTHERNERS IN GERMANY.

Washington, Oct. 18.—American soldiers held as prisoners in Germany announced by the war department today include Joseph E. Wood, Sandy Ridge, N. C., who was reported in good health, and Albert Findley, Brewton, Ala., both at unknown camps.
